

§ 951.9 Modifications of applications after project completion.

Modification procedure. If, after final disbursement of funds to a project from all funding sources, there is or will be a change in the project that would change the score that the project application received in the funding period in which it was originally scored and approved, had the changed facts been operative at that time, a Bank, in its discretion, may approve in writing a modification to the terms of the approved application, other than an increase in the amount of subsidy approved for the project, provided that:

(a) The project is in financial distress, or is at substantial risk of falling into such distress;

(b) The project sponsor or owner has made best efforts to avoid noncompliance with the terms of the application for subsidy and the requirements of this part;

(c) The project, incorporating any material changes, would meet the eligibility requirements of § 951.5(b); and

(d) The application, as reflective of such changes, continues to score high enough to have been approved in the funding period in which it was originally scored and approved by the Bank.
